About Me

MCA (AI/ML) student at RISU with a focus on Python automation and Cloud Operations. Currently on a 90-day intensive skill challenge to master backend systems and AI-driven workflows. Aiming to leverage technical skills in a remote AI Engineering role

Skills

- HTML,CSS
- Python
- Automation: Python Automation Script
- COMMUNICATION
- Database: SQL, DBMS
- Cloud: AWS (Cloud Operations)

Project

1. Mental Health Sentiment Tracker (In-Progress)
 - Developing a Python-based NLP tool to analyze emotional trends from text data.
 - Implementing data cleaning and sentiment classification logic.
 - Tools: Python, NLTK, Logic-based Automation.
2. Virtual Internship - Infosys Springboard
 - Completed 14+ industry-aligned certifications in Python, Cloud Fundamentals, and DBMS.
 - Gained exposure to real-world technical workflows and corporate learning

languages

English
Hindi

Education

School Education

Senior Secondary

2020-2021

Shram Niketan Hr.Sec School ACC JAMUL

Completed Class 12 under the CGBSE board in the Commerce stream with Computer Application, gaining strong foundations in programming concepts.

Secondary

2018-2019

Shram Niketan Hr.Sec School ACC JAMUL

Completed CGBSE 10 with a strong foundation in core subjects including Mathematics, Social Science , Science and English etc.

Bachelor Degree

2022-2025

G.D. Rungta College of Science And Technology Kohaka Kurud Road Bhilai

I completed my BCA where I learned programming languages like Python, C, C++, and .NET. I also studied important subjects like Operating Systems, Computer Basics, and Maths. This degree gave me a strong base in computer science.

The main things I learned are:

- How to code in Python, C, C++, and .NET
 - How Operating Systems work
 - Computer Fundamentals and Maths for problem-solving
- This prepared me well for a job in the tech field.

G.D. Rungta College of Science And Technology Kohaka Kurud Road Bhilai

2025-2027

Rungta International Skill University
MCA (AI ML) Student | September 2025 - Present

Currently pursuing my Master's in Computer Applications. My college goals are to solidify my Python programming skills and significantly improve my communication abilities through the Toastmasters Club.
